What are
we doing here?
Waiting for
someone?

Those guys, and we're
waiting up with someone
or they contacted us.

I haven't seen
them in ages.
What are they
doing here?

Oh—Mina
looking!

It's been ruled
by humans for
a long time.

Shin Wool

Hehehehehe
I know that guilds in
Midgar were skilled.

but I never thought
would be acquainted
with the hunters!

The kingdom has
very strict laws about
dragon artifacts,

so the strange
blonde hunter never
saw them

A few weeks ago,
I wrote a special
report on dragon
legends, and mentioned
the two items artifacts
being exhibited.

It was amazing!

A four-story
house made
of concrete

really went
"BOOM!"

Although he is my son,
Rafael acts on impulse
and lets his emotions get
the better of him.

I'm worried about
his future as the head
of our bloodline...

He's very much
perfect to me.

Melanie

It seems that the
young Master has
fallen in love again.

This person
is very good.

The Master
is really
interested
in him.

To protect the
Headline and serve
my master,
I need to watch

she suspected that I already knew somehow a little...

so that our meeting would not be suspicious

however, my primary intention was to affect the contractors

I was surprised to find out that the same was true

players only need to follow orders given by their masters.

so we only
reach to using
the existing
materials...

When
you're
walking...

I didn't intend
to get too close
to him...

from
sneaking
up...

isn't that
right?

Is it supposed
to be like this?

I still, it seems
absurd... but it would
really increase the
chance of success, then
perhaps, better than
that surely

After a little
chance,

I cannot
predict what
situation will
come next

Harmon always
thinks of themselves
as in their nature.

Humans in
general...

will think of
themselves
before others.

People say that a parent's love is unconditional and infinite.

"They will always think of their children before themselves."

"They will continue bloodline in the future."

It's like instinct
based on desire.

In reality, there are
two sides of the coin.

On one hand,
there are humans
with more desires
than others.

On the other hand,
there are humans who
almost no desires.

Knows it...

uniquely that she
feels satisfaction
from seeing the
happiness of others.

She has no wants
or needs, and will
quietly sacrifice
herself to do good
works for others.

Certainly, at
a glance, it may
seem like a
rather thing,
but...

she tirelessly
sacrifices herself too much,
from time to time.

Surely, as a human...
No, as a living being,
it becomes a problem.

Once someone
realizes this,

they will use
her nature to their
advantage.

If one does
not take care
of herself,

they'll be used
until they can
do no more.

I'm glad that child
died living a peaceful
life in Middle.

It's better than dying
a dog's death.

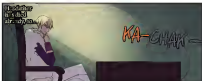

BANG!

KA-CHAK

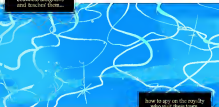

The adopted sister of Count Dorton
Lily Dorton & Tyuri Dorton

Count Dorian adopts countless daughters and teaches them...

how to spy on the royalty who visit their towns.

I also see girls that are
around your age, too.

I guess we should
be wary of Dorton,
after all.

But it's true that the
laws in Dorton aren't
as strictly enforced
compared to the capital.

Ladies, you
have brightened up
this room with your
presence

Golden-brown
hair. Blue eyes.

She is in the Forest of
Blue Storage beasts, heading
towards the hunter's village
with a couple of reporters.

Will commence spying.
